## HOW TO CELEBRATE VALENTINE'S WITH STYLE

Whether it is a quiet evening at a fancy restaurant or a night out on the town - here are some easy great romantic looks:

1. The key to getting this seductive hairstyle is to make sure you wrap hair loosely around a medium curling. Run fingers through your hair to break up the pieces and muss up the ends, then pin random sections back to give that "not trying too hard" look.
2. To get Jessica Alba's luscious curls, start with a great blowout, then wrap just the ends around a large curling iron for a full and healthy look.
3. To get the glamorous finger waves like Charlize Theron, wrap sections of hair around a medium-sized curling iron. Make sure to alternate directions for a voluminous look with extra bounce.
4. Soft waves: place medium-sized hot rollers from the bottom of your hair up to the roots and leave in for 20 minutes. After removing, separate curls with your fingers and spritz with shine spray.

## Make up tips for Valentine's Day

Celebrity makeup artists say that the most common mistake women make when choosing eyes shadow, is to try to match your eye color too much. Having blue eyes, so you wear blue make up, isn't the trend anymore. Today, it is all about contrast. The eye shadow is meant to frame the eye, not to overpower it.

A tone **blue eye** will stand out much more with a bronze shadow. With brown eyes, you can add a dark blue shadow to outline the eye.

Following, is a step by step guide to help apply the best eyes shadow for your eye color.

**Blue eyes:** the best color is bronze eye shadow. Use a matte taupe in the crease, and then use a satin bone shade underneath the brow area. Apply the lid with a shimmery bronze shadow with a damp brush. When it dries, it will have a glazed look that will last longer than a using a cream shadow. Use a dark brown pencil, closely line the top and bottom lash lines to deepen the effect.

**Brown eyes:** start out with a dark (navy) blue eyeliner with a neutral shadow. Start with a satin bone color on the eye lid. For the next layer, apply a matte taupe in the crease and a shimmery champagne along the brow bow. Use a blue pencil to line closely along the top lash line. Blend the line. Draw a touch of color underneath the lid to continue the look. Do not apply it on very heavy, it will draw the eyes down.

**Green eyes:** start with a plum eye shadow. Use a lavender shade for the lid. Use a middle-toned color for the crease and highlight with the palest shimmery shade. Use a dark plum shade to bring out the outer corners. Finish with a shimmery plum liquid on the top of the eye, very close to the lash line.

**Hazel eyes:** green works best. Use sheer, muted greens. Apply a matte taupe in the crease and a champagne shimmer on the brow bone. Use a light shade on the lids. Line the eyes top and bottom with a deep dark evergreen pencil, smudging with your finger.
