

5 Tips For Your Summer Hair Survival Kit

Aaah, summer! It means fun and sun. What's not to love?

Just make sure you add these 5 tips to your beach bag for hair that looks beautiful all season.

1. **Enhance Your Shine.** Don't let summer sun dull your hair. Get a gloss treatment. It's a lot like a topcoat for your hair, sealing in the hair cuticle and creating lots of shine. Your hair will look fresh even in the worst heat.

2. **Protect color.** Between chlorine and sun your hair doesn't really stand a chance. Chlorine is very drying and can cause your hair to change color. To prevent freshly colored hair from fading, wet your hair before entering the pool. Your hair will only absorb a certain amount of water so if it is pre wet before entering the pool, it will not absorb as much chlorine. Add a conditioner like Bb's Creme de CoCo for maximum protection.

3. **Trim your ends.** Don't even think about skipping this essential tip! For beautiful, healthy hair, Follow these guidelines : For short hair get your ends trimmed every 6 weeks, mid length every 8 weeks and long hair no longer than 10 weeks.

4. **Skip heat styling.** Go for the ever so popular beachy wave. Try **Saijojo Styling Foam** and layer Bumble and bumble's **Surf spray** for the ultimate waves. Just give your hair a break from so much heat. If you must heat style, use a heat styling protectant and focus only on the "T" zone!

5. **Banish oily strands.** Sun and fun can cause hair to get oily and greasy. Keep a dry shampoo like Bumble and bumble's **Prêt à Powder** handy to refresh your style.

Before you even get to the beach, use a moisturizing shampoo. Leave in some conditioner to help your hair soak in much needed moisture and protect it from the sun's rays.

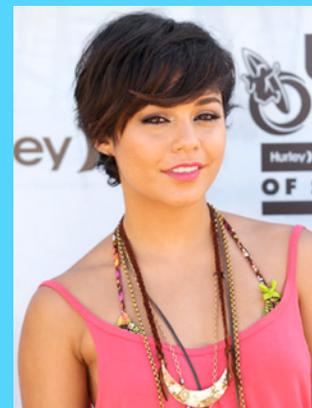

There you have it. It just takes a little planning to keep your hair looking beautiful!
